The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1 at paragraph (A) it is unclear as to what elements constitute the Markush group and which elements serve to further define individual elements.

Also in claim 1, at paragraph (C), it is unclear what the elements of the Markush group are.

Claim 7 depends from claim 1 and recites the rheological additive to be a salt of polyacrylic acid. Claim 1, however, requires the rheological additive to be a (meth)acrylate copolymer.

Appropriate clarification is required.
